INTELLIGENCE PROCESS COURSE #2-77

15 November - 17 December 1976

Room 912 Chamber of Commerce Building

Telephone Number: 2351

Intelligence Institute Office of Training

STAFF

25X1A

E2 IMPDET CL BY 27156

COURSE OBJECTIVES

Upon completion of the Intelligence Process Course, the student will:

- --have a basic knowledge of the intelligence process and the interaction that occurs among its several components: intelligence objectives; requirements; sources of collection; processing, storage, and retrieval of information; analysis; production; and presentation.
- --Understand the contribution of intelligence to decision-making at the executive level and to supporting the executive level in carrying out national policies.
- --Be familiar with the scope of intelligence research and the broad range of analytic methods developed within and used by the Agency and other members of the Intelligence Community to produce finished national intelligence.
- --Be conversant with the variety of intelligence publications and production methods that are used to meet the requirements of foreign intelligence consumers.

COURSE METHODS

- 1. Intelligence specialists from within CIA and from other agencies within the Intelligence Community will give presentations to the class. Assigned reading and motion pictures will be used to prepare students for the presentations or to enlarge on the scope of the presentations.
- 2. Analysts from CIA and other intelligence agencies will conduct discussions and panels with class participation. Working analysts will use case studies to examine the intelligence process in operation. In presenting these case studies, the analysts will consider tasking, research, analytical techniques, coordination, and methods of presentation.
- 3. Members of the class will perform a number of exercises that reinforce their understanding of classroom lecture/demonstrations on presentation skills and problems.
- 4. The class will visit several intelligence facilities in the Washington area to observe collection, processing, analytic, and presentation activities. Attention will be given to examining methodologies developed by components of the Intelligence Community to meet particular collection and analytic needs.

INTELLIGENCE PROCESS COURSE #2-77 15 November - 17 December 1976

Monday, 15 November

Room 912, C of C

25X1A

0345-1000

Course Introduction

-Administrative Affairs
-Presentations and Introductions

-Class dembers' Profiles and

Interest Inventory
-Security Arrangements

-Overview and Requirements

1015-1200

Film: Scientific Intelligence in World War II

Many of the tenets and practices that underlie intelligence work today were developed in World War II. This film illustrates how finished intelligence, based on and including a meshing of requirements, all-source collection, analysis, and appropriate methods of presentation, affects policy decisions.

1200-1300

LUNCH

1300-1430

U.S. National Security and Foreign Intelligence

Directed Reading:

-History of the Central Intelligence Agency, Senate Report, pp. 1-107 (to be read as time permits)

-A Guide to the National Intelligence Community's Production Organizations and Their Products

-Perspectives for Intelligence; 1976-1931

-The Director of Central Intelligence, Senate Report

-CIA Production of Finished Intelligence, Senate Report

1430-1600

The Intelligence Cycle

25X1A

U.S. positive foreign intelligence is presented as a continuous process involving close interaction between the policy-level user of foreign intelligence and collectors and analysts.

CONFIDENTIAL

Approved For Release	2000/04/18 : CIA	-RDP80-0503A	000100050002-4
- 1 16 Marombor		ROOM	912, 6 01 6

Tuesday, 16 November

0845-1000

Directed Reading:

25X1A

-Another View of S&T Analysis
-The Oxcart Story,

25X1A 25X1A

1000-1045

Classification and Compartmentation

Staff

This session will be a brief review of compartmented clearances, what they mean, and when they are applied; it will include a definition of terms and an explanation of

restrictions and caveats.

1100-1200

Film: A Point in Time

This film traces the development of today's overhead reconnaissance systems.

1200-1300

LUNCH

1300-1330

Film:

This is a special film developed to explain a new imagery collection system.

1330-1500

Directed Reading:

25X1A

-Intelligence for the Policy Chiefs,

20X 17

-CIA Intelligence Support for Foreign and Mational Security Policy Making

25X1A

-The Art of China Watching, -An Assessment of OCI's Superstructure,

-The National Intelligence Daily,

25X1A

1500-1600 Requirements

25X1A

25X1A

Requirements and Evaluation Staff, Office of the Comptroller

The establishment of collection goals and work priorities for both collectors and analysts is one of the most important and frustrating tasks of resource managers. During this session, the formal and informal structures for determining what to collect will be explored.

Intelligence Process Course -- Evaluation Form

ŧ	Name_		 	(Optional)
			13	

You will recall there are four principal objectives of the IPC. Now that you have completed the course, you should:

- --Have a basic knowledge of the intelligence process and the interaction that occurs among its several components: intelligence objectives; requirements; sources of collection; processing, storage, and retrieval of information; analysis; production; and presentation.
- --Understand the contribution of intelligence to decision-making at the executive level and to supporting the executive level in carrying out national policies.
- --Be familiar with the scope of intelligence research and the broad range of analytic methods developed within and used by the Agency and other members of the intelligence community to produce finished national intelligence.
- --Be conversant with the variety of intelligence publications and production methods that are used to meet the requirements of foreign intelligence consumers.

The IPC undergoes continuous review and modification to achieve maximum utility, and any comments you make -- especially constructive suggestions for improvement -- will be valuable to us in designing the next course. (Use additional paper, if necessary, and do not feel confined to these specific questions; if you wish to discuss any relevant topic, feel free.)

1. Please indicate on the scale below the degree to which the IPC as a whole met its stated objectives:

Slight			Highly Satisfact			
1	2	3	4	5	6	7

ADMINISTRATIVE - INTERNAL USE ONLY Approved For Release 2000/04/18: CIA-RDP80-00503A000100050002-4

2. Identify the most effective or valuable presentations, visits or exercises in the course and explain why.

3. Identify the least effective presentations, visits or exercises and explain why.

4. Please comment on course focus and balance. That is, was proper time devoted to each topic? Were some overdone at the expense of others? Are there any general topics you believe to be pertinent to this class which were not included at all?

Intelligence Process Course -- Evaluation Form

You will recall there are four principal objectives of the IPC. Now that you have completed the course, you should:

- --Have a basic knowledge of the intelligence process and the interaction that occurs among its several components: intelligence objectives; requirements; sources of collection; processing, storage, and retrieval of information; analysis; production; and presentation.
- --Understand the contribution of intelligence to decision-making at the executive level and to supporting the executive level in carrying out national policies.
- --Be familiar with the scope of intelligence research and the broad range of analytic methods developed within and used by the Agency and other members of the intelligence community to produce finished national intelligence.
- --Be conversant with the variety of intelligence publications and production methods that are used to meet the requirements of foreign intelligence consumers.

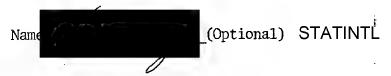

The IPC undergoes continuous review and modification to achieve maximum utility, and any comments you make -- especially constructive suggestions for improvement -- will be valuable to us in designing the next course. (Use additional paper, if necessary, and do not feel confined to these specific questions; if you wish to discuss any relevant topic, feel free.)

1. Please indicate on the scale below the degree to which the IPC as a whole met its stated objectives:

3. Identify the least effective presentations, visits or exercises and explain why.

Those by military intelligence offices outside the Agency.

To a briefins, they were too long and magniture to the class' needs and interests.

4. Please comment on course focus and balance. That is, was proper time devoted to each topic? Were some overdone at the expense of others? Are there any general topics you believe to be pertinent to this class which were not included at all?

for someone who works as an analyst, the course was generally good in providing perspective on one's work and how it fits in with the whole community. The course's basic problem was the diverte career interests of the tudents - so that what was comprehensible career interesting to a small part of the class of any given time was and interesting to a small part of the remainder. Many of the briefings not understandable and boring to the remainder. Many of the briefings - sspecially from initiary intelligence should be condensed into a fraction of the time. We don't need to know each office in such a fraction of the time. We don't need to know each office in such a fraction of the time. We don't need to know each office in such a feather, just its function and how it fits it. We need to see more detail, just its function and how it fits it. We need to see more

Lenjoy activities that require me to participale actively. The writing exercises and the bruefing were enjoyable I learned a great deal about legement writing from the OSR Critique. I fell that OCR was absorber and failed to gover any rapport with the class. Also the view presented by the Congression of aide was extremely beneficial.

3. Identify the least effective presentations, visits or exercises and explain why.

The visit to ASA was a waste of time. The bruefing of focus were an embarassment to the army. The langues to the greet tons were even more so. Also the assessment of the Lutelligence process Briefing was a waste. The bruefer was boring and inclaving to surstudies.

4. Please comment on course focus and balance. That is, was proper time devoted to each topic? Were some overdone at the expense of others? Are there any general topics you believe to be pertinent to this class which were not included at all?

More time should be devoted to mactical harming More writing I enjoyed the overview hub feel that we we should work at a more fundamental level

Intelligence Process Course -- Evaluation Form

You will recall there are four principal objectives of the IPC. Now that you have completed the course, you should:

January Committee Co

- --Have a basic knowledge of the intelligence process and the interaction that occurs among its several components: intelligence objectives; requirements; sources of collection; processing, storage, and retrieval of information; analysis; production; and presentation.
- --Understand the contribution of intelligence to decision-making at the executive level and to supporting the executive level in carrying out national policies.
- --Be familiar with the scope of intelligence research and the broad range of analytic methods developed within and used by the Agency and other members of the intelligence community to produce finished national intelligence.
- --Be conversant with the variety of intelligence publications and production methods that are used to meet the requirements of foreign intelligence consumers.

The IPC undergoes continuous review and modification to achieve maximum utility, and any comments you make -- especially constructive suggestions for improvement -- will be valuable to us in designing the next course. (Use additional paper, if necessary, and do not feel confined to these specific questions; if you wish to discuss any relevant topic, feel free.)

3. Identify the least effective presentations, visits or exercises and explain why. 05 the growse gets the prize for a worther day no more need by the least to do the writing exercise - (which I think is worthwhile) a better extend a evaluation would be northwhile.—

OERA OSP Davis medium.

4. Please comment on course focus and balance. That is, was proper time devoted to each topic? Were some overdone at the expense of others? Are there any general topics you believe to be pertinent to this class. Which were not included at all?

As with any course of they type—thing are better than others.

The shoot was to show us "The heavy"—the intelligence process etc.—an in queuel the sound that—what as analysts her can use to sid us in our work. Some if we leaved that—what, as analysts her can use to sid us in our work. Some if we was truly meaningless — mainly because of the friefers. Some simply werent to was truly meaningless which was fun but.

The writing exercise could be very useful—and I think practical the writing exercise could be very useful—and I think practical exercises are very good—but it needs rebusion to make things meaningful exercises are very good—but it needs rebusion to make things meaningful we know nothing below to the country, and no analyst writes a staff rate withs no background information to the business also is northwhile like the with so the days. As for the volvings in the beginning—we tund not to do all y it—by its important—athless it.
